I am a big supporter of business development and growth with responsible and realistic mitigation plans. The mitigation plan from Pyramid development and the comments published by Pine Bush reserve in opposition to this project make me think it is going to have a major damage to Karner butterflies population and the the Pine bush and the neighborhood. The traffic in and around crossgates mall area is already a huge problem. Hence the reason, I oppose this project proposal from Pyramid for building costco, apartments and the other one. The crossgates mall is so empty why can't they make half of that space into Costco.

Thank you,
Sudhakar
