Dear Mr. Kovalchik,

I am a resident of the Town of New Scotland and I support a large amount of the small businesses in Guilderland, particularly along the Western Avenue corridor. The proposal by Pyramid will be an enormous boost to the economy for Albany County, and I support the Town to approve this proposal.

The development would be an enormous boost not only to Guilderland, but also Albany County. Costco would bring in a large number of quality jobs. Their company has a very high track record of satisfaction among its employees. Also, I support a number of the small businesses nearby and owners have expressed overwhelming hope for this development to happen.

I am in full support and feel this is the best for the Town of Guilderland and its neighbors.

Sincerely,
Jeffrey Muha
82 Clipp Road
