Altamont, NY 12009

Re: Costco Development Project

Dear Mr. Kovalchik:

I have already shared my thoughts with you on this project, and appreciate you taking them into consideration again. I am very much in favor of the development of land near Crossgates to build a much desired Costco. This will be a great addition to the marketplace and will be a valuable asset for the Town of Guilderland and Albany County.

I commend the Town for taking the extra time, with the COVID-19 crisis, to slow down the process and not hold meetings which could put residents at risk. That being said, the public comment period as extended is more than double the amount of time required and I am respectfully requesting that the Planning Board take the next step in approving the project.

We should be ready, when approved, to be able to get local employees back to work on a project as soon as possible. This project could have an extremely positive impact on our local workforce and our regional economy.

Thank you for your consideration

Sincerely,

Carver Laraway
