To the Town of Guilderland:

I've recently heard that Costco was planning to open a store in the town and I can't tell you how excited I am! As a mom of three, this will make my shopping trips so much easier and means that I can shop in our own community as opposed to going to MA to the closest Costco. My husband works in Guilderland and I know that this means more visitors, which means more money being pushed into our economy, which means a stronger workforce for all! And at this point, given the current circumstances, we need all the help we can get. So please consider approving of this and allow it to happen!

Thanks!
The Wilson Family
