Crossgates Mall has been a place for my business "Gold Exchange" since 2012 and I am a resident of Guilderland and I strongly support the Costco project here. It will bring more shoppers to our area and our store. I also think the residential building being proposed will be great also because it is so close to Crossgates Mall and will make it easy for them to get to us to shop. I have children in the schools here at the Westmere area and this will help our schools and what they can offer my family through the years. Please consider approving.

Thank You.
