R.E.: Costco/Residential Development for Crossgates

To Whom it May Concern;

By means of this letter, my family and I are writing to the Town of Guilderland in regard to the development and expansion for Crossgates in the surrounding properties, so that Costco and Residential building may take place around the Crossgates campus.

Crossgates has been such a significant part of our family's history, through family gatherings and social activities, for as long as I can remember. My family and I support the work Crossgates ensure in order to have a safe and exciting shopping experience day in and day out. Our family utilizes the stores and restaurants on a weekly basis and are so pleased to have such a pleasant shopping opportunity at our fingertips.

As we all know, we are in the digital age, where online shopping is growing at an exponential rate. In order for Crossgates to continue to provide a wonderful experience for members of its community, we understand, and support the need for improvement and expansion, hence us supporting the need for these new projects to continue.

We look forward to working and walking through Crossgates, and for our children and grandchildren to have the same experience, and for that to happen, we support the need for expansion around their property.

Thank you for taking the time to read our letter and opinion on the subject above.

Sincerely,

The Brumsey Family
