Dear Mr. Csaposs,

I am writing this letter to express the full support I have for the building of a Costco in the Town of Guilderland. I am the owner of Rotor-matic Plumbing and Drain I am excited to see the positive impact and potential that this would have on my company. My company has been proudly serving the Guilderland and surrounding areas for several years. We provide commercial and residential services ranging from drain cleaning, water jetting and domestic water and sanitary line installs just to name a few. This project will enable companies like mine to potentially provide even more work to the community for more years to come. My business looks forward to this type of growth here in the town. I believe Costco would be a perfect addition to the Guilderland area for shopping and community growth as well. I hope to see the IDA support and assist with this project as well.

Sincerely, Jason Lorenz

Owner Rotor-Matic Plumbing and Drain
